## Corvatsch, Diavolezza, Lagalb

# Three mountains, three fabulous beings

## FAIRY-TALE MOUNTAIN SCENERY

What a combination! Corvatsch, the large raven. Smart, breathtaking and free as a bird. Diavolezza, the she-devil. Passionate, icy hot and devilishly beautiful, like flames in the snow. And Lagalb, the white lake. Unspoilt, magnificent, perfect for adventures on water and ice.

The three cable cars are all in the Upper Engadin, located around the famous Bernina massif with the 4049 m high Piz Bernina at its heart – the only 4000 m peak in the Eastern Alps. On the western side of the Piz Bernina towers the mighty Corvatsch, while the gentler Diavolezza and Lagalb, the sports fans' favourite, are to the east.

Whether it is winter or summer, whether you are in search of action, fine food or relaxation – in the fairy-tale mountain scenery of Corvatsch, Diavolezza and Lagalb, everyone will find what they are looking for. The cable cars run for 365 days a year, for seven months in the winter for skiers and then for five months in the summer – offering breathtaking views of the Piz Bernina from different perspectives. 13 mountain restaurants in winter and 6 mountain restaurants in summer are waiting to treat you as well.

## SNOW-DEAL

## SLEEP + SKI

**The best slopes from CHF 45.**

**Benefit from two ski pass offers: "Snow-Deal" for dynamic prices or "Sleep + Ski" for accommodation. Book early and benefit!**

Since the 2018/19 winter season, there have no longer been fixed prices for day and multi-day passes for the Corviglia, Corvatsch/Furtschellas, Diavolezza/Lagalb and Zuoz skiing areas. Decide early on that you're going to go skiing in the Upper Engadin, and take advantage of the early-bird

discount on any single day or multi-day ski pass of your choice. The prices for both day and multi-day passes vary depending on the demand and when you book. The earlier you book, and the lower the demand for that day, the cheaper the price.

**Book now at [www.snow-deal.ch](http://www.snow-deal.ch).**

### 3 FACTORS DETERMINE YOUR PRICE

①

#### The date

A starting price is set for each day, depending on the season.

②

#### The demand

The more people book on a particular day, the more the price increase.

6

③

#### The time of purchase

The earlier you book, the higher is your discount.

The "Sleep + Ski" offer is a fantastic deal available from the 2019/20 winter season for guests staying in a hotel for one night or more. Throughout your whole stay between 19 October 2019 and 3 May 2020, you can book a discounted ski pass for CHF 45 per person, per day.

FAIRY-TALE MOUNTAIN SCENERY

**Corvatsch – the raven**  
CLEVER, BREATHTAKING,  
FREE AS A BIRD

In fables, the raven is often thieving and sly. Our Corvatsch steals only one thing: our hearts. Exhilarating skiing in powder snow. Happy hours of endless sunshine at 3,303 metres above sea level. Culinary highlights that know no bounds. If you are looking for adventure, this is the place for you: the Corvatsch Furtischellas skiing area, with 120 km of perfectly prepared slopes, a Snow Park including Fun Ride, Snow Night, off-piste descents and the legendary Hahnensee run. Foodies will also find

everything they could hope for. At the Restaurant 3303, you can dine closer to the heavens than anywhere else. The La Chüdera restaurant on Furtischellas is an insiders' tip for gourmets. Along the way, you will be tempted by the delicacies on offer at the Murtèl middle station, the Kuhstall and Rabgiusa, while the Hossa Bar is the hot spot for the après-ski crowd. So let's go – strap on your skis and up, up and away to Corvatsch.

# SNOWSAFARI

**Ski from Sils to Celerina on the most beautiful slopes of Corvatsch and Corviglia: the Snow Safari is the best way to explore the Engadin.**

The Snow Safari goes from Sils via Furtischellas towards Corvatsch and right up to 3,303 m above sea level. From the Corvatsch top station, the roof of the Engadin, the tour takes you to the legendary Hahnensee run and then down to St. Moritz Bad. On the other side of the valley, you cross into the

Corviglia area. There, you'll visit Piz Nair and Trais Fluors before taking the long run down to Celerina. To fortify you during the Snow Safari, there are more than 16 restaurants and mountain huts along the way.

## THE HAHNENSEE RUN

It has been called the king of ski slopes and, along with the Diavolezza glacier run and the La Rösa firm snow run, is one of the top three best runs in the Engadin.

The legendary Hahnensee run from Giand'Alva past the Hahnensee lake to St. Moritz Bad is not only breathtaking on account of the views. The 9 km-long run is challenging, steep and bound to make your thighs ache. It's not for nothing that it's called the king of the slopes in the Engadin. Afterwards, you can recover on the Hahnensee Express (Lines 1 & 6/9), which conveniently runs four times an hour to take you back via St. Moritz Bad (and Champfèr) to the Corvatsch valley station – and it's free of charge.

### TIMETABLE HAHNENSEE-EXPRESS

	⬇	⬆
St. Moritz, Bahnhof	8:05 – 17:35	8:53 – 18:23
St. Moritz, Schulhausplatz	8:09 – 17:39	8:49 – 18:19
St. Moritz, Via San Gian	8:16 – 17:46	8:40 – 18:10
Surlej, Corvatsch	8:27 – 17:57	8:30 – 18:00

All routes run four times an hour from 30.11.19-19.04.20 from St Moritz station to Surlej Corvatsch and back (Lines 1+6/9)

## FREERIDE ELDORADO

### THE AVALANCHE RISK AND QUIET AREAS FOR WILDLIFE

Information about the current and local risk of avalanches, and about quiet areas for wildlife, is available from the free-ride checkpoints at the Corvatsch top station, the Murtèl middle station and the Furtschellas middle station.

3,303 metres above sea level: freeriders can travel to such lofty heights by cable car. At the top, they are spoilt for choice: couloir or powder snow?

The Corvatsch offers everything that gets freeriders' pulses racing: a steep channel for freaks, expansive fields of deep snow for the more laid-back, cliff jumps for daredevils.

### POWDER UNTIL THE END OF APRIL

Thanks to the high-altitude location and many northfacing slopes, there is no shortage of powder – even when elsewhere freestylers are surfing on corn snow. With classic routes such as the Piz San Gian or the Chapütschin, the Corvatsch is an ideal departure point for ski tours too. The area around Furtschellas is an insiders' secret for freeriders because of its incredibly varied and exciting terrain.

### NOT YET AN OFF-PISTE EXPERT?

But would you like to have a go at freeriding and feel the fresh powder snow on your face, well away from the pistes? Then learn and experience skiing or snowboarding in open terrain under the supervision of a local guide. You'll be given some instruction about deep snow and avalanches to teach you the basics that you need to know in order to venture safely into the world of freeriding.

# CORVATSCH PARK

## FAIRY-TALE MOUNTAIN SCENERY

**The Corvatsch Snow Park is one of the biggest in the Alps and offers the perfect set-up, with lines for all levels of ability.**

The Corvatsch Snow Park is an ever-improving freestyle area that is suitable for all abilities. The park extends right down the length of the Mandra 4-seater chairlift so you can do numerous runs a day, with no time wasted. The park is at an altitude of 2535 to 2702 metres and faces north-east. This location means that the season starts at the end of November and perfect snow conditions can be guaranteed until the end of April.

### LINES

The entrance to the park is next to the

Murtèl middle station, in the middle of the skiing area. The setup includes a range of kicker and rail lines of all degrees of difficulty. The easy and medium lines include jumps and boxes that are equally suitable for beginners and more advanced skiers and snowboarders, while the real high-flyers can build up their air miles on the Pro Line. The 5 x kicker and rail line is the favourite playground of snowboarding pro and park ambassador, Nicolas Huber. Scan the QR code to watch Nicolas making the Pro Line rock.

### FLOW LINE

The showpiece of the park is and always has been the flow line. The creative obstacles, shaped to suit the terrain, are constantly being redesigned and when you reach the fun mini-pipe at the end, you really feel as if you are surfing.

### FUN RIDE

That's the name of the fun slope that provides an extra dose of action for anyone who wants to have a go at freestyling, or is simply looking for a bit of a change from perfectly groomed slopes. You go cruising over waves and small jumps and round steeply banked corners for a complete 500 metres. As the icing on the cake, the Fun Ride includes a 6-metre-long booster box and two sections for doing high-fives.

### PROGRESSION DAYS

From 20 – 26 April 2020, the Progression Days event will be taking place for the second time. The Corvatsch Snow Park is freely accessible for everyone. All you need is a valid ski pass. You can look forward to an excellent training terrain, a public photo shoot, a "get-together" with snowboarding pro Nicolas Huber, freestyle ski and snowboarding courses for beginners and the more advanced, and many more highlights. The programme will be published at [www.corvatsch.ch/progression-days](http://www.corvatsch.ch/progression-days).

### EVENTS

The Corvatsch Snow Park hosts several national and international competitions. Every March, the FIS Freeski World Cup takes place here. From 20 - 21 March, the best freestyle skiers in the world will meet here and compete to be crowned FIS World Cup champion. ## SIMPLY NATURE

**Walking on snowshoes high above the lakes of the Engadin – you can only do it on Corvatsch. The views of the frozen lakes and the icy peaks of the Corvatsch massif are stunning.**

Probably the best snowshoe walking route in the Engadin is on Furtschellas. High above the lakes, you experience nature in all its glory, on a safe, marked circular walk.

### LAKE TRAIL

The Lake Trail has now been turned into a circular snowshoe walk in winter. It starts at the Furtschellas middle station and, after a steep climb to start with, goes over fairly flat terrain to the Ustaria Rabgiusa, where the large sunshine terrace will tempt you in to relax. After some well-deserved refreshment, you

do another short climb before going back down to the Furtschellas middle station.

FAIRY-TALE MOUNTAIN SCENERY

## Diavolezza – the she-devil

PASSIONATE, ICY HOT, DEVILISHLY  
BEAUTIFUL

Many years ago, Diavolezza, the beautiful she-devil lived high up on the mountain. Now and again, hunters would find her, follow her – crazed with love – and fall to their deaths. So it was with young Aratsch, after whose death, Diavolezza wailed pitifully: "mort ais Aratsch" – "Aratsch is dead". Her cry gave the Morteratsch Glacier its name. So the story goes. If you like to feel the heat in winter, then the realm of the beautiful she-devil is the place for you. In winter, keen winter sports fans can warm

up nicely on the glacier or moonlit runs, on a ski tour or a winter walk. And don't forget the jacuzzi at 3,000 metres and the Bernina Glaciers World of Adventure, with audio tour and the Snow Climb Point. Two restaurants are the culinary hot-spots. You certainly won't get your fingers burnt with a day on Diavolezza.

**For anyone who wants to experience the magic of winter in the Engadin in all its glory, the Diavolezza and Lagalb are a must. This is where you can enjoy the sport of skiing like it used to be.**

Not long after winter tourism was invented, more than 150 years ago in St. Moritz, the first "free-riders" – though they were not yet called that – came flying down the powdery snow on the slopes and the long and spectacular descents on the Bernina Pass make this the favourite terrain of local powder junkies.

## HIGHLIGHTS

One of the classic routes on Diavolezza is the glacier run. On the Morteratsch glacier, you can ski past mighty Piz Palü on a 10 km-long piste

that is signposted in yellow and made safe but not groomed, all the way down to Morteratsch. It's an absolute highlight! But the Glüna Plaina – skiing fun under the full moon – is another very special adventure.

The sensational panoramic views, varied powder snow runs and perfectly prepared pistes make for a whole world of experiences unlike any other. Why not come along and fall under the spell of our fairy-tale mountain scenery?

## GLACIER RUN

**Ski on the Morteratsch and Pers glaciers, past the mighty Piz Palü and down a 10-km-long run all the way to Morteratsch.**

The trip begins with a leisurely cable-car ride; after just a few minutes you have reached the top of Switzerland's longest glacier run. This glorious descent leads through a wilderness of snow and ice, and takes about 45 minutes. It takes you over the Pers and Morteratsch Glaciers right to the foot of the glacier, and ends just in front of the sun terrace of the station of the Rhaetian Railway in Morteratsch. The piste is yellow marked on both sides, secured and not groomed. In terms of difficulty, most of it is equivalent to a red run; about 300 metres (330 yards) are equivalent to a black.

### CAUTION

Do not leave the piste – danger of crevasses!

The Rhaetian Railway will take you back to the Diavolezza or Lagalb car parks.

A valid lift pass for the Diavolezza/Lagalb ski area includes the return trip by RhB railway.

### DATE

Depending on snow conditions from approx. January until March.

In bad weather conditions, when the glacier downhill run is not marked or secured for the public, you can be guided down the icy course, by experienced professionals (for a fee).

# LAGALB

## FAIRY-TALE MOUNTAIN SCENERY

**Lagalb – the white lake**  
UNSPOILT, MAGNIFICENT,  
THRILLING

Deep, unfathomable and so beautiful: lakes play a central role in many fairy-tales. There is a particularly striking one at the top of the Bernina Pass, where the Lagalb peak is located: the Lago Bianco, from which Lagalb takes its name and which you can see from the top station. In winter, when it is frozen, it is black and shimmering. Ice skating on the famous black ice of Lago Bianco is a unique natural experience. With its fantastic views of

Lago Bianco, into the Poschiavo valley and further south into the Valtellina, the Lagalb skiing area is an insiders' secret. The Lagalb cable car is a bit like a time machine: as you rise up to 2,893 metres above sea level, you feel you are going back into the past. The charm of Lagalb lies in its remoteness and in the variety on its slopes. Creature comforts are catered for by two restaurants full of traditional charm.

### AVALANCHE TRANSCIEVER & FREERIDE CHECKPOINT

The checkpoint for avalanche transceivers is located right next to the Diavolezza and the Lagalb top station including information on the avalanche situation.

### FREERIDE DIAVOLEZZA & LAGALB

Diavolezza and Lagalb offer freeriders a veritable paradise, their many couloirs and beautiful deep-snow runs are made for the ultimate winter sports adventure.

### PISTES

Lagalb is the Mountain for connoisseurs. The black slope is exactly what dare devils are looking for. The first section just below the top station is the steepest slope in the Alps, including the the steepest prepared ski slope in Graubünden. Depending on your proficiency, it may not just be the magnificent views of the mountain scenery that take your breath away.

### LA RÖSA FIRN SNOW RUN

The ski run from the Lagalb top station on firn snow down to La Motta in the Poschiavo valley is an insider's secret that is very popular with the locals. At the end of the run, there's a bus to take you back to the Lagalb valley station.

## CLUB 8848

**Set yourself a challenge – come to the Lagalb and cover the height of Mount Everest in just one day!**

### WHAT'S IT ALL ABOUT?

In 1970 a club was set up with the intention of promoting skiing on the Lagalb. It was called "Club 8847, Piz Lagalb – Mount Everest ". You became a member by doing eleven ski runs down from the Lagalb, one run from the Skilift Minor and one climb up the footpath to Piz Lagalb, and so covering the height of Mount Everest in vertical distance. Since the 2018/19 winter season, the legendary Challenge has been reintroduced. However, since Mount Everest has been

re-measured, you now have to cover one more metre.

### THE CHALLENGE

The Club is new, the challenge is the same: Cover 8848 metres of vertical distance in one day! If you can accomplish eleven runs down from the Lagalb top station to the valley station, plus four ascents on foot from the Lagalb top station to Piz Lagalb, you can become a member of the new Club 8848 and enjoy a range of special benefits.

Leisure walkers, families and people just looking for great views will all strike gold on Corvatsch. On 80 km of footpaths they can enjoy amazing views of the lakes of the Upper Engadin and the magnificent ice fields on Piz Bernina and Piz Roseg. Paragliders launch themselves from 3,303 metres to compete with our local high-fliers, the bearded vultures and eagles.

The Via Gastronomica combines exercise, nature and good food in a unique experience. Families with children are well catered for on Furtshellas. The Water Trail takes children on a discovery trip to six crystal-clear mountain lakes. And when they reach their destination, the children will find dwarf goats, rabbits and so on, just waiting to be stroked.

### DIAVOLEZZA

The she-devil's mountain is the ideal starting point for high-alpine mountain tours in the famous Bernina region. After all, you're already at 3,000 m when you start. But the joy of reaching the summit is not reserved for experienced mountaineers. The Piz Trovat via ferratas I (easy version) and II (difficult version) take budding alpine climbers up to the

summit of the same name at 3,146 m. It's a climbing experience that offers huge views. If you prefer relaxation and fine food, the audio tour will tell you all you need to know about the Diavolezza, while you enjoy some culinary treats on the sunshine terrace. For some devilishly memorable moments, there's the jacuzzi with its panoramic views followed by a night at the Berghaus Diavolezza.

## INTERSPORT RENT-NETWORK

In general, the calculation of the refund amount will be based on the medical certificate. If the pass is used again at a later date, any claim for a refund will be reduced in line with the date of last use. Tickets valid for one day or less will not be refunded. Any refund claims must be made within 30 days after the event occurs, or, in the case of annual passes, before the expiry date thereof. In cases of recurrence or in serious cases, revocation of the ticket or pass may ensue.

**Transport to sports activities** – Persons may be excluded from transport to sports activities in cases where weather conditions are not suitable for engaging in such sports activities, especially where there is avalanche risk. Persons may also be excluded from transport to sports activities if they endanger third parties immediately prior to such transport and there is reason to believe that they will continue to endanger third parties. A person especially puts third parties in danger when such a person: behaves recklessly; goes onto a slope that is exposed to avalanches; disregards safety-related instructions and prohibition notices; defies safety-related directives by supervisory and rescue services. The foregoing list is not exhaustive. The transport of sports and leisure equipment can be excluded in particular for technical reasons, safety issues or to abide by overriding provisions.

Third party costs (e.g. Rega, doctor) are to be paid directly by the customer. Customers should make any claims for refund directly to their insurance providers.

### PRIVACY

By purchasing a ticket and/or opening a customer profile or subscribing to a newsletter of one of the companies of the ESMP, the customer actively agrees that the companies of the ESMP save the personal, sales and usage data and can use it for statistical and promotional purposes.
